DOCUMENT Curriculum vitae VERSION v3.2 REVISED Sept 2026 STATUS Approved

1.0 PROFILE

Senior Project Manager at Intuji, Perth, with the PMO remit for the delivery team. Nine years across ERP, CRM and platform transformation. Engineer first, which is why the architecture review and the steering committee get the same person.

To take programmes that arrive as an ambiguous brief and return them delivered, governed and handed over — for UK and Australian enterprises, across any timezone.

3.0 EXPERIENCE

Jul 2026 — Present
Perth, WA

Senior Project Manager

Intuji

- Own concurrent programmes end to end for Australian and international clients — discovery through UAT, release and handover
- Shape vague or incomplete briefs into scoped programmes via discovery workshops, stakeholder interviews and documented assumptions
- Select and document the delivery model per project — Scrum, Kanban, stage-gated, or a blend — rather than defaulting to one
- Build and own project budgets; track burn weekly and forecast to completion, bringing options rather than just the variance
- Mentor L1/L2 PMs and own the delivery playbook: templates, checklists, estimation framework and governance standards

Sep 2025 — Jul 2026
Perth, WA

Technical Project Manager
Intuji

- Oversaw end-to-end execution of technical projects, defining scope, objectives and success criteria
- Primary bridge between engineering, QA and DevOps teams and non-technical client stakeholders
- Managed schedules, resource allocation and budget, adjusting plans for capacity and scope changes

Apr 2023 — Jul 2023
Nepal

Project Manager — PMO
Frost Digital Ventures

- Managed the full lifecycle from requirement gathering and user stories through to UAT
- Led cross-functional teams of 15+ across disciplines
- Oversaw AI-focused research and development projects

Jul 2020 — Apr 2023
Kathmandu, Nepal

Project Manager
Dogma Group

- Ran concurrent client projects end to end, on time and within budget, across a five-hour timezone gap with UK project managers, consultants and stakeholders
- Owned RAID governance across the portfolio, escalating early to protect delivery dates

Jun 2019 — Aug 2020
Kathmandu, Nepal

Project Manager
Subisu Cablenet

- Coordinated projects from initial survey to final UAT
- Identified resource requirements, planned capacity and allocated accordingly

Mar 2018 — May 2019
Kathmandu, Nepal

Engineer — Maintenance Planning
Shree Airlines

- Monitored and scheduled maintenance for aircraft parts and components
- Planned aircraft maintenance to reduce downtime

May 2016 — Mar 2018
Nepal

Engineer — Production & Maintenance
Varun Beverages (PepsiCo)

- Monitored utilities: boiler, refrigeration, water treatment, electrical power systems, air compressor and CO2 plant
- Maintained the production line — bottle washer, filler, capper, labeler, packing and moulding

4.0 SELECTED DELIVERY

CS-01

Retiring a legacy back office and shipping web and mobile on NetSuite

4 mo legacy platform fully decommissioned, no partial cut-over

Enterprise services · Australia · 4 months
